Thanks to all those who are participating in the GOOD NEIGHBOR program, detailed in the bulletin boards by each mail box area. Just a reminder for those snowbirds who will only be with us a short time this season: SHARE YOUR PARKING SPOT with year-round Flamencoites when you are not here. You are not giving up your spot. Your spot will always be free and available to you when you are here and need it.

But while you are away, and not using the spot, there are many people who live here year-round that either need a second spot or need to park closer to the building due to health issues.

By seeing Gisela or Nikki in the front office and telling us when you will not be here, we can allow others to use your parking spot instead of a guest spot, which are otherwise usually filled up and unavailable for guests.

We have many new unit owners with 2 cars, so the GOOD NEIGHBOR program helps alleviate this problem while causing nobody to lose out... it's a win-win for everybody.

Please review the flyer by each mail box or stop in the front office so Gisela can explain it to you. Your cooperation is appreciated by all.

Andrew Solomon,
Parking Committee Chairman

- Don't sweat the petty things and don't pet the sweaty things.
- If a man evolved from monkeys and apes, why do we still have monkeys and apes?

Math

A public school teacher was arrested today at John F. Kennedy International airport as he attempted to board a flight while in possession of a ruler, a protractor, a compass, a slide-rule and a calculator. At a morning press conference, Attorney General Eric Holder said he believes the man is a member of the notorious Al-Gebra movement.

He did not identify the man, who has been charged by the FBI with carrying weapons of math instruction.

‘Al-Gebra is a problem for us’, the Attorney General said. ‘They derive solutions by means and extremes, and sometimes go off on tangents in search of absolute values.’ They use secret code names like “X” and “Y” and refer to themselves as “unknowns” but we have determined that they belong to a common denominator of the axis of medieval with coordinates in every country. As the Greek philosopher Isosceles used to say, “There are 3 sides to every triangle.”

When asked to comment on the arrest, President Obama said, “If God had wanted us to have better weapons of math instruction, He would have given us more fingers and toes.” White House aides told reporters they could not recall a more intelligent or profound statement by the President. It is believed that another Nobel Prize will follow.

Glaucoma

Awareness Month

Did you know that you could be going blind and not even know it? January is Glaucoma Awareness Month, a time to remind the public about the dangers of this disease. Glaucoma is the leading cause of blindness in all adults over the age of 60. In the African-American population, people over 40 are up to five times more likely to get glaucoma.

Glaucoma can’t be cured, but if caught early, treatment options can reduce the risk of blindness. If you are over 60, or if you are African-American and over the age of 40, or you have a family history of glaucoma, talk to your doctor. You should have an eye exam every two years. It is painless, easy, and it could save your sight.
